

Energy: Where we stand and where we go

📅 22-12-2020 ↗ <http://www.primapagina.sif.it/article/1220>

In order to contribute to the training of young scientists working in the energy sector or intending to do so, the European (EPS) and the Italian (SIF) Physical Societies started the Joint EPS-SIF International School on Energy as a collaborative initiative. The Courses are foreseen to take place on a biennial basis in the beautiful venue of Villa Monastero in Varenna, Lake Como, Italy.

In 2019 the 5th Course of the Joint EPS-SIF International School on Energy, titled *"Energy: Where we stand and where we go"*, was successfully held in the week 22-27 July.

The proceedings, edited by Luisa Cifarelli and Friedrich Wagner, are now published both on paper, in a volume of the *"Lecture Notes of the Joint EPS-SIF International School on Energy"* series, and on-line open-access as EPJ WoC, Vol. 246 (2020).
