This issue of *Il Nuovo Cimento C* is dedicated to a selection of the best communications at the 106th National Congress of the Italian Physical Society, held on-line on 14-18 September 2020, by a number of young, talented members of the Society. The National Congress is a good occasion to prize these young physicists of different fields with a rapid publication of their results and *Il Nuovo Cimento* is particularly suitable to comprehensively highlight them.
